## EXPERIENCE

- **Officer – AI Product Innovation, FAST SOFTEC (Present)**  
Organized the AI Product Innovation Competition at Pakistan's largest student-run tech event. Managed competition structure, participant onboarding, and judge coordination. Oversaw proposal reviews, final demos, and ensured smooth, fair execution.
- **Executive Member – FAST Literary Society (FLS)**  
Led event planning for literary activities including debates, open mics, and the FAST Book Fair. Handled stall coordination, publisher outreach, and volunteer management to ensure high engagement.
- **Remote Web Intern – Prodigy InfoTech**  
Gained hands-on experience in HTML, CSS, and JavaScript through a project-based internship.

## EDUCATION

- **FAST-NUCES Lahore**  
BS Software Engineering (2022–2026)
- **Government College Lahore (GCUL)**  
Intermediate (2020–2022)
- **Unique High School**  
Matriculation (2018–2020)

## PROJECTS

- **DarziXpress (Spring 25) – MERN-stack tailoring service platform**  
*Built an online tailor booking system with user-tailor-admin modules, real-time order tracking, in-app chat (Socket.io), and secure email notifications via Node Mailer.*
- **Metro POS System ( Fall 24) – Java Console Application**  
Designed a role-based POS system for retail branches with Super Admin, Branch Manager, Cashier, and Data Entry Operator modules. Implemented offline data storage using .txt files with sync flags, real-time sale updates, vendor/product management, and sales/stock/profit reports with optional charting.
- **Shadow Strike: The fight Against Black Veil (Spring 25) – Action Game built on Unity (C#):**  
Developed a 3-level mission/survival game on Unity using Mixamo characters, custom animations, C# scripting, UI designed with consistency, and immersive level design.
- **Weather App ( Spring 24) – Java Console Application**  
Developed a weather app (GUI & console) using OpenWeatherMap APIs. Implemented SQL/text file storage, caching, real-time alerts, and followed SOLID principles for clean, maintainable code.

## SKILLS

- MERN
- C++
- C#
- Java
- Python
- Unity
- DSA
- Operating Systems
- Git/GitHub
- **Computer Networking**
- SQL
- SOLID Principles
- Postman
- Software Testing
- JMeter
- UML Design

## ACHIEVEMENTS

- Secured **9th position** out of all candidates in Lahore in the BISE FSc. Part-I exams.
- Awarded a **2-year merit scholarship** by Unique High School.
